We wish to thank you & your men for an excellent job. You have trained them well. Mark & James are not only very particular but truly an excellent combination. They are real professionals & truly look after your interests as well as taking pride in their work. Thank you again for a Superb job! I certainly will tell everyone there is only one painter in town "**Perryman Painting**".
Wilma Homsy, Granite Bay, CA

We really appreciate the great job your painters did. A "top notch" job and we love it! We had a friend over on Sunday that is a landlord in the Antelope area and I referred your company to him for all of his painting needs. We will certainly have some painting needs in the future and we feel very comfortable because we have "found our painter". Take care.

We are thrilled with the job Neil and his crew did. The cabinets look wonderful and the painting throughout the house is just what we wanted. Neil was terrific to work with! We were really impressed with him. Such a great attitude and so helpful. Thanks so much!

Just a brief note to thank you and your staff for an outstanding job in painting the interior of our Granite Bay home. The attention to detail and the over all work are simply outstanding! Please feel free to include our home in your list of references. In particular, I wanted to express our gratitude to Mark and Javier for their hard work and dedication. They were awesome! They arrived on time every day and worked diligently to complete work in a timely manner, while always keeping our living arrangements in mind to make us as comfortable as possible. The work was never rushed, and the men played closed attention to detail and our request. The walls, ceilings, crown molding, and base boards are gorgeous! Thank you again for a job well done from very satisfied customers. It will be my pleasure to recommend your business to friends and colleagues. Continued success in all your future endeavors.

If you ever need a reference, don't hesitate to call or email me. I'm very pleased with the interior painting you did for me. Also, my daughter was very pleased with the cabinet sanding and varnishing job at her Rocklin home.

I was very happy with the interior painting job that your company completed at my house. I have already highly recommended your company to a number of my friends and told them if they are planning to paint to give Perryman's a call. I did give your card to one friend that may want some painting some time in the future. Thank you very much for a job well done.
